 **Portfolio:** <https://kasun-akalanka-web.vercel.app/>

Profile

Detail-oriented third-year Software Engineering undergraduate at SLIIT (CGPA: 3.3) with hands-on experience developing full-stack applications mainly using Java, Spring Boot, HTML/CSS, React, Node.js and SQL/NoSQL. Proven ability to ship production-ready systems through academic group projects and personal initiatives, covering web development, mobile app development, ML, and DevSecOps. Strong foundation in software engineering principles, data structures, database systems, Agile methodology, and the Software Development Life Cycle (SDLC). Actively expanding skills across NestJS, Next.js, React Native, Firebase and cloud-native tools and passionate about building high quality scalable, real-world solutions in fast-paced environments.

Projects Experience

Lanka Crafts – Full-Stack Platform Connecting Tourists & Sri Lankan Artisans 2026

Node.js, Express.js, React.js, React Native, Expo, MongoDB Atlas, Firebase Auth, Netlify, Railway

Designed the Tourist Profile & Experience Sharing module: registration/onboarding flows, map-based artisan discovery with geolocation, and a multimedia blog publishing system. Architected the DevSecOps security pipeline. Integrated Firebase Admin SDK for server-side token validation and enforced RBAC middleware across API routes. Deployed live architecture across Netlify (web), Railway (API backend), and published pre-compiled Android APK binaries via GitHub Releases.

UniFound – University Focused Lost and Found System 2026

Next.js(React), NestJS, Supabase, Docker

Self-initiated full-stack project replacing informal WhatsApp/noticeboard workflows with a centralized, authenticated platform for item reporting, admin verification, and claim lifecycle tracking. Designed RESTful APIs, role-based authentication, and structured database schemas with a focus on real-world usability and data integrity.

TrueLife - Health Insurance Management System 2025

Java, Spring Boot, MS SQL Server, Docker

Developed a layered full-stack application following Controller–Service–Repository architecture to digitalize health insurance processes including policy management, billing, and claims. Designed RESTful APIs and optimized database queries; system validated using Docker-based testing.

T20 International Match Prediction System 2025

Python, scikit-learn, pandas, Streamlit, Machine Learning

Trained Random Forest and regression models on historical T20I data (2005–2023) to predict match winners, optimal toss decisions, and safe first-innings scores. Performed feature engineering including PCA dimensionality reduction and categorical encoding; deployed interactive predictions via Streamlit.

Ever After - Wedding Planner Web Application 2025

Java, Spring Boot, HTML, CSS, JavaScript

Built a web platform for managing wedding services and bookings, applying OOP principles, structured service layers, and REST-based communication under academic constraints (file-based persistence, no auth APIs).

Small-Scale Business Website (V3J Automotive Solutions) 2025

HTML, CSS, JavaScript, Node.js

Delivered a production-ready business website based on real client requirements, ensuring usability, responsiveness, and long-term maintainability.

Professional Experience

Banking Intern 10/2024 – 02/2025

Peoples' Bank – Suduwella Branch

- Supported daily banking operations and customer-facing processes using enterprise banking systems.
- Handled confidential financial data while following compliance and security procedures.

Banking Intern 04/2024 – 10/2024

Bank of Ceylon – Western Province (Central) Office

- Assisted in operational workflows, documentation handling, and supporting the planning and management of events.

- Strengthened teamwork, communication, and time management skills while coordinating tasks in a team-based environment.

Education

BSc (Hons) in Information Technology specializing in Software Engineering <i>Sri Lanka Institute of Information Technology (SLIIT)</i> CGPA: 3.3	2024 – Present
G.C.E. Advanced Level Examination <i>Ananda College, Colombo 10</i> Physics – B, Chemistry – C, Combined Mathematics – S, English – A, General IT- A	2023
G.C.E. Ordinary Level Examination <i>Ananda College, Colombo 10</i> 8A's 1B (including ICT)	2019

Certificates

Backend, Full-Stack & DevOps • <i>Spring Boot REST API with Java & Gradle – CodeSignal (Dec 2025)</i> • <i>Getting Started with Full Stack Java Development – Simplilearn (Dec 2025)</i> • <i>JavaScript Essential Training – LinkedIn Learning (Jan 2026)</i> • <i>DevOps Foundations: Your First Project – Project Management Institute (Jan 2026)</i> • <i>Cloud Computing: Understanding Core Concepts – NASBA (Jan 2026)</i>	2025 – 2026
Platforms & Tools • <i>Linux Unhatched – Cisco / Credly (Dec 2025)</i> • <i>Prepare for the GitHub Foundations Certification – LinkedIn Learning (Dec 2025)</i>	2025 – 2026
Certificate of Merit – 8 times <i>Ananda College, Colombo 10</i>	2016 - 2019
Advanced Computing Year 7 <i>Pearson Education LTD</i>	2018

Leadership & Volunteering

Chief Organizer - Traffic Warden Unit, Ananda College Led and coordinated student teams during major school events, managing planning, task allocation, and on-ground execution. Strengthened leadership, decision-making, and team coordination under time constraints.	2021 – 2022
Member - MS Club, SLIIT	2026 – Present
Member - Traffic Warden Unit, Ananda College	2018 – 2021
Member - ICT Society, Ananda College	2018 – 2019

Technical Skills

Languages: Java, JavaScript, TypeScript, Python, C	Databases: MS SQL Server, MySQL, MongoDB, Supabase, Firebase (Auth)
Backend: Spring Boot, NestJS, Node.js, Express.js	Cloud & DevOps: Docker, Git, GitHub, Postman, Linux, Vercel, Render, Netlify, Railway, Expo, Cloudinary, Notion
Frontend: React.js, React Native, Next.js, HTML5, CSS3, Tailwind CSS	ML / Data: scikit-learn, pandas, Jupyter, Streamlit

Soft Skills

Problem Solving | Critical Thinking | Leadership | Team Collaboration | Adaptability | Time Management | Creativity

Interests

Full-Stack Development | Web Development | Mobile Development | Artificial Intelligence | Learning New Technologies
